Sir:

APPEAL BRIEF UNDER 37 C.F.R. § 1.192

This brief answers the final Office Action of February 14, 2002. It is filed with two additional copies of the originally signed brief. It is accompanied by the small entity fee of \$160.00 under 37 C.F.R. § 1.17(c). It is timely, since it is filed within four months of the Notice of Appeal dated June 12, 2002, and accompanied by a Petition for an Extension of Time and the fee of \$200.00 under 37 C.F.R. § 1.17(a)(2).

I. Real Party Interest

GPI NIL Holdings, Inc. is the real party in interest.

II. Related Appeals and Interferences

The following cases may be related to the present case: (1) Application No. 09/879,888, filed June 14, 2001; and (2) Application No. 09/781,427, filed February 13, 2001. The appeal numbers have yet to be assigned.

III. Status Of Claims

Claims 5-6 and 8 are pending. Claims 1-4 and 7 are cancelled. Claims 5-6 and 8 are appealed.

IV. Status Of Amendments

All amendments were entered.

V. Summary Of Invention

The invention includes a composition comprising an effective amount of a specified compound, a second hair revitalizing agent, and a pharmaceutically acceptable carrier. Specification, p. 4, ll. 14-19; claim 5 (once amended).

VI. Issues

There is one issue presented for review:

A. whether claims 5-6 and 8 are patentable under the judicially created doctrine of obviousness-type double patenting in view of claims 17-32 of copending Application No. 09/879,888.

VII. Grouping Of Claims

For the purpose of this appeal only, the claims stand or fall together for each ground of rejection which Appellant contests and which applies to a group of two or more claims.

VIII. Argument

A. The rejection of claims 5-6 and 8 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 17-32 of copending U.S. Application No. 09/879,888 is improper and should be reversed, because the evidence and explanation of record fail to support the rejection.

A factual finding that is material to patentability can neither stand if it is supported only by conclusory statements nor be resolved only on the subjective belief of an examiner. In re Lee, 277 F.3d 1338, 1346, 61 USPQ2d 1430, 1433 (Fed. Cir. 2002). More particularly, under the facts relevant to this rejection, the grounds for rejection should make two findings clear: (1) the differences between the claims of the '888 application and the species that the Examiner proposed to obtain; and (2) the reasons for choosing that species. MPEP § 804 II. B. 1. The differences were never even summarized in the record. Office Action of 2/14/2, p. 2, ll. 19-22; Office Action of 9/17/1, p. 3, l. 27-p. 4, l. 5. Furthermore, overlap and double patenting are two contrasting issues. MPEP §804 II. ("Domination" is analogous to overlap.). One set of claims overlaps a second set if the first set has a broad claim which encompasses an invention of the second set. Id. Overlap itself, however, cannot support a double patenting rejection. Id. Thus, this rejection is improper and should be reversed, as it is based on a mere conclusion or subjective belief.

IX. Appendix

An appendix containing a copy of the claims involved in the appeal is attached.

X. Conclusion

The rejection should be reversed and the application allowed.

Respectfully submitted,

Dated: October 15, 2002
